

Midwest Environmental Advocates

2018 Summer Advocate

Midwest Environmental Advocates (MEA) is the first and only nonprofit environmental law center in Wisconsin. MEA provides legal and technical support to grassroots groups that are working for environmental justice in the Western Great Lakes region.

MEA's mission is to provide high quality legal services that support a diverse, grassroots social movement; build local leadership; and implement innovative solutions to environmental problems. Our campaigns include fighting factory farm pollution, reducing toxic emissions, protecting sacred places, and ensuring government accountability.

Summer Advocates work closely with MEA attorneys on case development and litigation. This may include drafting pleadings, briefs, and other legal documents; conducting legal research and prepare memoranda; developing strategy and legal theories; gathering evidence; and attending meetings with clients, conferences with opposing counsel, and any court proceedings. Summer Advocates will also have the opportunity to conduct intakes of potential clients, interact with attorneys and other experts, and attend press conferences and government meetings.

Summer Advocates may also work with MEA's Equal Justice Works (EJW) Fellow, who advocates for state and federal accountability to tribes. The EJW project focuses on legally and technically assisting a collaboration that assesses and addresses Tribes' risks from the State's regulatory failures.
