Environmental Cleanup & Brownfields Redevelopment

BRRTS on the Web

If the results of your search include Activities across multiple locations, the results are grouped by alternating background colors indicating the different locations.

[Advanced Search](#) > Search Results

[HELP](#) | [FEEDBACK](#) | [DOWNLOAD TO EXCEL® ?](#)

PLEASE NOTE! The results of your search may not represent a complete list of all activities and locations with environmental contamination in the state of Wisconsin. This may occur for such reasons as the criteria used in your search may not exist across all BRRTS database records (e.g. location zip code). In addition, there are some locations for which DNR has some limited information, but no confirmation of a discharge to the environment, these potentially contaminated sites do not appear in BRRTS on the Web until contamination has been confirmed. Also, the Wisconsin DNR may be unaware of contamination at some properties. Please see [BOTW Help](#) for additional information.

29 Activities found searching for:
Contaminant was PFAS
